

# VILLA YIP DAYCARE

## PRODUCTS & RATES 2019

### PRODUCTS

Villa Yip offers whole day childcare and daypart childcare. It is also possible to choose a combination of both. In addition we offer - only possibly in combination with a contractual agreement - the possibility of occasional (flex) childcare per daypart or per hour. Childcare is provided from a minimum purchase of 2 dayparts per week.

### RATES & ALLOWANCE

As of January 1st 2019 our main rate is € 8.55. The government rate concerns € 8.02. In addition, in 2019 parents will receive a higher percentage childcare allowance than in previous years.

### NET COSTS

The Dutch government contributes to the costs for the use of childcare. The amount that remains after deduction of the childcare allowance is called net costs. These are the costs that are actually for your own account. As you can see, our childcare is also in 2019 very affordable.

### AGREEMENT INNOVATION & QUALITY (IKK)

As of January 2019, the ratio regarding babies is changing. This is done by the agreement IKK. The new ratio will then become 1 pedagogical employee at 3 nil year olds. Previously this was 1 at 4. IKK also sets various other requirements for our organization. Including the use of specifically trained coaches and mandatory training courses for all employees.

Villa Yip fully complies with the Childcare Act and the IKK Agreement.

### GROUPS

Our four groups are mixed of age (0 to 4 years)
